The Historic Garnet Gold Mining District. Garnet, Montana.

## PRESS RELEASE – For immediate release.

**January 6, 2010**

Grant Hartford Corporation (the “Company”) announced today that the Securities and Exchange Commission (“SEC”) provided its Notice of Effectiveness, with respect to the Company’s Registration Statement on Form S-1 as of 3:00pm (EST) on January 5, 2010. With this effectiveness the Company is now considered a publicly reporting company under the Exchange Act of 1934, as amended.

Upon declaration of Effectiveness by the SEC, the Company is now positioned to complete work in order to proceed into the Garnet Mineral Property’s next mining phase through the completion of an updated prefeasibility study, which will meet the SEC’s strict guidelines for Development Stage mining companies. Coinciding with our updated prefeasibility study, and proceeding into the Development Stage, the Company plans to immediately begin preparation and the subsequent filing of the 15c2-11 through FINRA and the application for acceptance by OTC so the Company’s shares can trade electronically.

These procedural operation plans, will not detract from the Company’s larger goal of completing the interpretations and extrapolations of the 2009 Drill Plan results and the preparation of a 2010 Drill Plan which the Company plans to continue with its focus on the Nancy Hanks, Dewey, Midnight, International and Tiger Lode Mining Claims, as well as broadening exploration activities throughout a number of the remaining patented and unpatented mining claims, and continuing mill and mine engineering, which the Company began in May of 2009.

### **About the company:**

Grant Hartford Corporation has acquired an exclusive option to purchase the mineral rights from Commonwealth Resources, LLC., to 23 patented and 122 unpatented mineral claims covering 2,000 acres within the Historic Garnet Gold Mining District, which is located 50 miles east of Missoula, Montana.
